# Tech Talks: Smartphone 101 (Apple)

Get the most benefit by knowing your home screen options and basic settings

Home Screen

|	
❏ **Status Icons** View signal and battery status at the top of the screen.	
❏ **Moving & Deleting Apps** Organize your home screen and remove unwanted apps. *(Hold down on empty space until apps wobble > move app icon to desired location > touch minus sign to remove or delete unwanted apps > touch Done)*	
❏ **App Dock** Place your most popular apps onto the dock at the bottom of the screen. *(Hold down on empty space on home screen > move app icons off/on dock area)*	
❏ **Creating App Folders** Organize your home screen by grouping apps into folders. *(Hold down on app icon > drag icon over the top of another app you wish to make a folder with)*	
❏ **App Library** View all your apps in the app library. *(Swipe from right to left until you reach the end of the home screen)*	
❏ **App Switcher** Quickly navigate between multiple open apps. *(Swipe up slowly from the very bottom right of screen > Scroll and choose the app you wish to use)*	
❏ **Search** Search your device or the Internet from the general search bar. *(Pull down from any empty space on home screen > type or speak your keyword search)*
