Book Discussion Kits (Biography)

Benjamin Franklin: An American Life

by Walter Isaacson

Chronicles the founding father's life and his multiple careers as a shopkeeper, writer, inventor, media baron, scientist, diplomat, business strategist, and political leader, while showing how his faith in the wisdom of the common citizen helped forge an American national identity based on the virtues of its middle class.

Born a crime

by Trevor Noah

One of the comedy world's fastest-rising stars tells his wild coming of age story during the twilight of Apartheid in South Africa and the tumultuous days of freedom that followed.

The Boys in the Boat

by Daniel James Brown

Traces the story of an American rowing team from the University of Washington that defeated elite rivals at Hitler's 1936 Berlin Olympics, sharing the experiences of such contributors as their enigmatic coach, a visionary boat builder and a homeless teen rower.

Catherine the Great: Portrait of a Woman

by Robert K. Massie

The Pulitzer Prize-winning biographer of Peter the Great presents a reconstruction of the 18th-century empress's life that includes coverage of such topics as her efforts to engage Russia in the cultural life of Europe, her creation of the Hermitage and her numerous scandal-free romantic affairs.

Crying in H Mart

by Michelle Zauner

The memoir explores Zauner's search for identity, her relationship with her Korean mother, and her beginnings as a musician. Key moments and emotions are constantly linked with food, which lies at the heart of Zauner's connection with her mother, her heritage, and her true self.

Dear America: notes of an undocumented citizen

by Jose Antonio Vargas

Pulitzer Prize-winning journalist Vargas, who is Filipino, learned of his undocumented status at the age of 16, when he tried to get a driver's license. With a reporter's instinct for detail, he writes about the challenges of surviving as an outsider in America.

The Dressmaker of Khair Khana

by Gayle Tzemach Lemmon

Presents the story of a fearless young woman who became a dress-making entrepreneur in Taliban-ruled Afghanistan, thus saving her family and bringing hope to the lives of dozens of women in her war-torn nation.

Einstein: his life and universe

by Walter Isaacson

A narrative portrait based on the complete body of Einstein's papers offers insight into how the iconic thinker's mind worked as well as his contributions to science, in an account that describes his two marriages, his receipt of the Nobel Prize, and the influence of his discoveries on his personal views about morality, politics, and tolerance.

Farewell to Manzanar

by Jeanne Wakatsuki Houston

The American-born author describes her family's experience and impressions when they were forced to relocate in a camp for the Japanese in Owens Valley, California, during World War II.

The five wounds

by Kirstin Valdez Quade

The Five Wounds follows middle-aged Amadeo, his estranged pregnant daughter Angel, and terminally-ill mother Yolanda, over a single year, as they struggle to redeem themselves by correcting previous missteps, cobble together a worthwhile future out of a broken past, and simply coexist under the same roof.

Fun home: a family tragicomic

by Alison Bechdel

Alison Bechdel's graphic memoir, which explores the complex and often contradictory experiences of her family life, intertwining the serious themes of her father's suicide with moments of humor and lightheartedness, all while navigating her own coming-out as a lesbian, creating a narrative that is both deeply personal and tragically comic.

Hijab butch blues

by Lamya H

A memoir that explores the experiences of a queer, hijabi Muslim woman in the United States, South Asia, and Southwest Asia.

The Immortal Life of Henrietta Lacks

by Rebecca Makkai

Henrietta Lacks was a poor Southern tobacco farmer who worked the same land as her slave ancestors, and whose cells--taken without her knowledge when she was treated for cancer in 1951--have become one of the most important tools in medicine. The Lacks family did not learn of Henrietta's cells until 20 years after her death, but these first "immortal" human cells grown in culture are still alive today: they've been bought and sold by the billions and have been vital in fighting polio, cancer, and many viruses. This incredible book explores race, bioethics, scientific research, human rights, the power of family, and the question of whether we control the very cells we're made of.

Lab Girl

by Hope Jahren

An illuminating debut memoir of a woman in science; a moving portrait of a longtime friendship; and a stunningly fresh look at plants that will forever change how you see the natural world

Leonardo Da Vinci

by Walter Isaacson

Based on thousands of pages from Leonardo da Vinci's astonishing notebooks and new discoveries about his life and work, Walter Isaacson "deftly reveals an intimate Leonardo" (San Francisco Chronicle) in a narrative that connects his art to his science. He shows how Leonardo's genius was

based on skills we can improve in ourselves, such as passionate curiosity, careful observation, and an imagination so playful that it flirted with fantasy.

Little Heathens

by Mildred Armstrong Kalish

An evocative memoir of growing up in the heart of the Midwest during the Great Depression describes life on an Iowa farm during a time of endless work, resourcefulness, family and kinship, and no tolerance for idleness or waste.

Monk of Mokha

by Dave Eggers

Mokhtar Alkhanshali is twenty-four and working as a doorman when he discovers the astonishing history of coffee and Yemen's central place in it. He leaves San Francisco and travels deep into his ancestral homeland to tour terraced farms high in the country's rugged mountains and meet beleagured but determined farmers. But when war engulfs the country and Saudi bombs rain down, Mokhtar has to find a way out of Yemen without sacrificing his dreams or abandoning his people.

My Life in France

by Julia Child

A memoir begun just months before Child's death describes the legendary food expert's years in Paris, Marseille, and Provence and her journey from a young woman from Pasadena who cannot cook or speak any French to the publication of her legendary Mastering cookbooks and her winning the hearts of America as "The French Chef."

The Orchid Thief

by Susan Orlean

A staff writer for The New Yorker describes the life and times of John Laroche, a plant smuggler and orchid thief, and the eccentric world of Florida's obsessed collectors of rare plants.

The Rainbow Comes and Goes

by Anderson Cooper

A poignant correspondence between the CNN journalist and his iconic designer mother, exchanged in the aftermath of the latter's brief illness, shares a rare window into their relationship and the life lessons imparted by an aging mother to her adult son.

Steve Jobs

by Walter Isaacson

Based on more than forty interviews with Steve Jobs conducted over two years--as well as interviews with more than 100 family members, friends, adversaries, competitors, and colleagues--Walter Isaacson has written a riveting story of the roller-coaster life and searingly intense personality of a creative entrepreneur whose passion for perfection and ferocious drive revolutionized six industries: personal computers, animated movies, music, phones, tablet computing, and digital publishing. Isaacson's portrait touched millions of readers. At a time when America is seeking ways to sustain its innovative edge, Jobs stands as the ultimate icon of inventiveness and applied imagination. He knew that the best way to create value in the twenty-first century was to connect creativity with technology. He built a company where leaps of the imagination were combined with remarkable feats of engineering. Although Jobs cooperated with the author, he asked for no control over what was written. He put nothing off-limits. He encouraged the people he knew to speak honestly. He himself spoke candidly about the people he worked with and competed against. His friends, foes, and colleagues

offer an unvarnished view of the passions, perfectionism, obsessions, artistry, devilry, and compulsion for control that shaped his approach to business and the innovative products that resulted. His tale is instructive and cautionary, filled with lessons about innovation, character, leadership, and values.

<u>Unbroken</u>

by Laura Hillenbrand

Relates the story of a U.S. airman who survived when his bomber crashed into the sea during World War II, spent forty-seven days adrift in the ocean before being rescued by the Japanese Navy, and was held as a prisoner until the end of the war.

The Year of Magical Thinking

by Joan Didion

An autobiographical portrait of marriage and motherhood by the acclaimed author details the critical illness of her daughter, Quintana Roo, followed by the fatal coronary of her husband, John Gregory Dunne, and her daughter's second bout with a life-threatening ailment, and her struggle to come to terms with life and death, illness, sanity, personal upheaval, and grief.
